

BDS-1 | Wall Strike

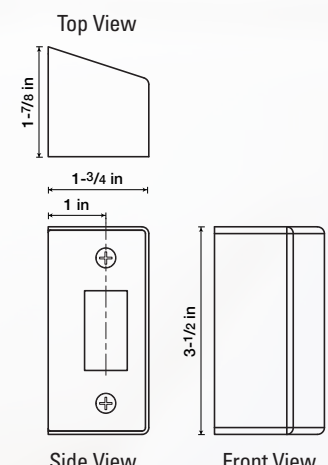

The BDS-1 is a durable self-enclosed wall strike solution enabling sliding barn doors to lock without a door jamb or other millwork structure.

- Suitable for use with Frascio SL2 and SL5 sliding door mortise locks.
- Concealed enclosure fastener system eliminates visible screws when door is in the closed position.
- Adjustable mounting bracket provides convenient installation.

BDS-1 can be used in a wide range of applications, including but not limited to:

- Hospitality
- Multi-family and Mixed Use
- Commercial and industrial
- Office Buildings
